

All drugs containing Phenylpropanolamine are being recalled. You may want to try calling the 800 number listed on most drug boxes and inquire about a REFUND.

Please read this CAREFULLY, as I know that some of you may USE some of these drugs (Alka Seltzer Plus for one).

Also, please pass this on to everyone you know. STOP TAKING anything containing this ingredient. It has been linked to increased hemorrhagic stroke (bleeding in brain) among women ages 18-49 in the three days after starting use of medication. Problems were not found in men, but the FDA recommended that everyone (even children) seek alternative medicine.
